

[illegible]

WHEREAS, Duchesne County has a general plan adopted pursuant to Utah Code containing policies for the appropriate use of private and public land within the county; and

WHEREAS, Duchesne County desires to amend its general plan to address changing circumstances since the last amendments in 2013 and to address County Resource Management Plan requirements established by House Bill 323 from the 2015 Utah Legislative Session as amended by House Bill 219 from the 2016 Utah Legislative Session; and

WHEREAS, Duchesne County gave notice to affected entities and the public of its intent to amend its general plan on January 23, 2017; and

WHEREAS, the Duchesne County Public Land Use Committee and Planning Commission, after public notice, conducted public meetings on March 1 and April 5, 2017 to discuss the plan amendments; and

WHEREAS, the Duchesne County Planning Commission, after giving public notice, conducted a public hearing on May 3, 2017 to review the amended plan and has recommended its approval; and

WHEREAS, the Duchesne County Commissioners, after giving public notice, conducted public meetings on May 22, 2017 and June 19, 2017 to discuss the plan amendments; and

WHEREAS, the Duchesne County Commissioners, after giving public notice, conducted a public hearing on July 17, 2017 to consider adoption of the general plan, county resource management plan and this Resolution.

BE IT THEREFORE RESOLVED by the Board of Duchesne County Commissioners that:

SECTION 1. The Duchesne County general plan is amended as set forth in Exhibit A attached hereto and incorporated herein by reference.

SECTION 2. The County intends this Resource Management Plan to be considered and implemented by public and private persons and entities when undertaking inventory, planning, and management activities relating to land or resources within the County's boundaries (the "Planning Area") to the fullest extent permissible under law. Land use plans, programs, regulations, decisions, and activities within the Planning Area shall be consistent with this Resource Management Plan to the maximum extent consistent with federal law.

SECTION 3. No provision in this Resource Management Plan should be disregarded because it conflicts with or violates, in whole or in part, any federal law, policy, or programs; instead, that provision, including its purpose and intent, shall be applied and implemented to the fullest extent possible without conflicting with or violating the applicable federal law.

SECTION 4. Should any provision in this Resource Management Plan be inconsistent with, conflict with, or violate any State law, policy, program, or plan, the provision shall be harmonized with the state law, policy, program, or plan to the extent possible. If harmonization cannot be accomplished, this Resource Management Plan shall be preempted by the relevant state law, policy, program, or plan to the extent necessary to attain consistency, resolve conflict, or achieve compliance.

SECTION 5. Any inconsistency or conflict between a provision of this Resource Management Plan and the resource management plan of another county that impacts the management of land or resources will be harmonized, or resolved, to the fullest extent practicable. The means of achieving resolution will include the opportunity for county to county review, conference, and

conciliation regarding the means of resolving the inconsistency or conflict. Should such inconsistencies or conflicts not be resolved, the State's law, policy, program, or plan applicable to such resource or land will be the only applicable law, policy, program, or plan.

SECTION 6. If any provision of this Resource Management Plan is held to be invalid, void, or unenforceable, the remainder of the provision and this Resource Management Plan will remain in full force and effect. The County will use its best efforts to find a lawful, alternate way to achieve the result sought by the provision held to be invalid, void, or unenforceable.

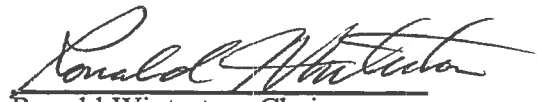

DATED this 17th day of July, 2017.
